

## VM-FAN556

VM3200 Fan Module

Overheating slows down device performance significantly and can result in equipment breaking down mid-operation. The [VM3200](#) is equipped with a fan module that ensures a cooling system is in place to keep the device from overheating. The fan is hot-pluggable and can be easily replaced without shutting down the system. ATEN ensures that your investment is protected while delivering outstanding performance.

### Specifications

|                         |              |
|-------------------------|--------------|
| Video Matrix Fan Module | VM-FAN556    |
| Airflow                 | 55.2 cfm     |
| Operating voltage       | 10.2 - 12Vdc |
| Operating Temperature   | -10 - 60°C   |
