The US4324 is a 2-Port USB 3.2 Gen 1 Sharing Switch designed to accommodate the use of USB-A and USB-B devices required for various workloads. Powered by USB-C, you can easily control and connect peripherals between the computer or tablet, creating a clean, clutter-free workspace. Compact and easy to carry, it's the perfect solution for your mobile office.

Sleek.

Compact.

Portable.

Share All Devices with One-Button Switch

Flexible Bus-Powered Design

The switch automatically powers on when connected to a computer. For setups involving power-intensive peripherals, an auxiliary USB-C port is available to connect a power adapter, guaranteeing stable performance and reliability.

Features

- InstaSync™ Technology
 - Fast USB switching capability that keeps the flow smooth and uninterrupted

- Four USB Device Sharing Across Two Computers
 - Farewell to the need of swapping cables and peripherals between two separate computers

- 5 Gbps Data Transfer with USB 3.2 Gen 1
 - Up to 5 Gbps SuperSpeed data transfer rates, which is about 10 times faster than the USB 2.0 standard, allow users to transfer large files quickly and efficiently

- Quick Switch via Built-In Pushbutton and Remote Port Selector
 - Enjoy the hassle-free experience of switching USB peripherals between two systems with just one single press to the button on US4324 or the remote port selector (package included)

- Compact Enclosure with Accent Lighting
 - Aesthetically pleasing with its accent lighting and a casing so compact that it occupies very little space

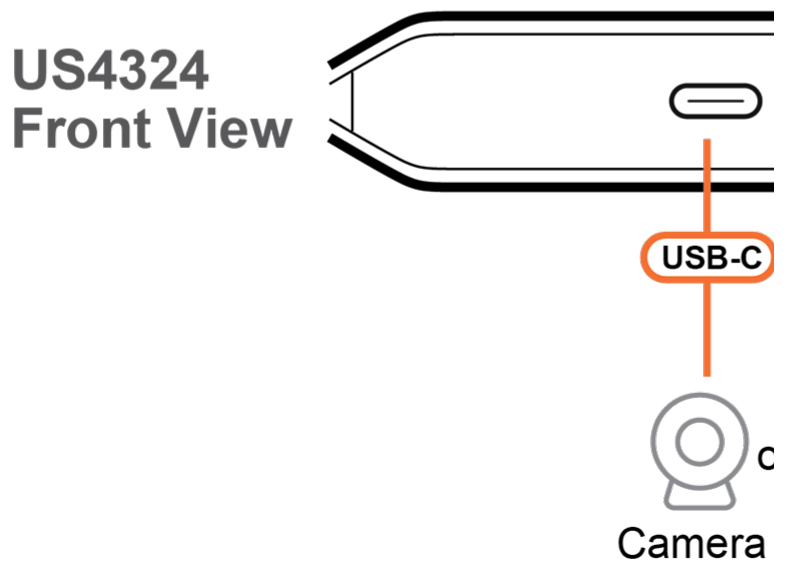

- Hot Pluggable
 - Allows adding / removal of the peripherals/computers connected to the installation without having to power down the switch. Besides, no drivers or software is required

- OS Independent
 - Compatible with mainstream operating systems including Windows, macOS, and Linux
